Installing the Personality on Linux Machines

This document describes how to install the Personality on Linux machines.

Parts List

This media package includes the following:

- Personality floppy disk
- 48.000753 *Installing the Personality on Linux Machines* (this document)

Installing the Personality Software

To install the Personality starting at the Ad Rotation, follow these steps:

1. Type the **Q** key to quit the Ad Rotation.
2. Press the **Alt** and **F2** keys to access the Linux operating system.
3. Type **vend** at the username prompt and press the **Enter** key.
4. Type **fotofant** at the password prompt and press the **Enter** key.
5. Insert the Personality floppy disk into the floppy drive.
6. Type **cd menu** and press the **Enter** key to change your directory location.
7. Type **./putper** and press the **Enter** key to load the personalities on the system and return to the system prompt.
8. Remove the floppy from the floppy drive.
9. Type reboot and press the **Enter** key. The system reboots and displays the Ad Rotation screens.
