LOGO

Primary Logo

- A horizontally-oriented logo is preferred to optimize for space and readability. This applies to the vast majority of use cases — for example, across broadcast, print, and digital contexts (e.g., web headers, banners, online video, etc.).
- There are two versions of our logo, a white logo and a blue logo that can be used interchangeably.
- The logotype was custom-made for the PBS logo only. Do not recreate the logotype in the PBS Sans font.

WHITE LOGO

Kansas City  PBS

Profiles are always PBS Blue

BLUE LOGO

Kansas City  PBS

Profiles are always White

Secondary Logo

- In certain cases where there are horizontal space constraints or size or aspect ratio limitations, a secondary co-branded logo that is vertically stacked may be used. (e.g., social media avatars that are typically in a circular format.)

Kansas City

Kansas City

Limited Use Logo

- Black and white logos can be used for print where color is not available.
- Do not make the logo grayscale.

**LOGO
LOCKUPS**

Primary Logo Lockup

- When it is necessary to use the Kansas City PBS, 90.9 The Bridge and Flatland logos together, the primary lockup that uses the horizontally-oriented Kansas City PBS logo above the Bridge and Flatland logos is preferred.
- The primary lockup with the adjusted Bridge logo (right) is for use at smaller sizes. The primary lockup with the full Bridge logo is for use at larger sizes.

Kansas City  PBS

COLOR

Primary Palette

- PBS Blue is our signature color and should be prominently placed for brand impact
- Primary accents (Teal, Yellow, and Coral) are to be used minimally to emphasize important content
- CMYK colors are recommended for a majority of print jobs; PMS colors should be used for limited color print jobs (ex: spot colors for high profile print jobs and for selecting blue products including fabrics, paint, other custom color materials)

Recommended Neutrals

These are the recommended neutrals which can be shifted lighter or darker as needed

The option to shift colors is limited to a cool color palette. When paired with text, check for color accessibility

Best when used:

- As non-primary elements in a design (ex: boxes that hold content, as a key or legend)

DON'T:

- Do not use neutrals as a replacement for our primary or secondary palettes
- Do not create neutrals by modifying primary accents or secondary accents
- Do not use neutrals on-air

Recommended as a lighter background color, alongside or as an alternate to White

Recommended as a text color on White backgrounds or as a background color with White text

Recommended as a darker background color, alongside or as an alternate to PBS Blue or Secondary Blues

KIDS LOGO LOCKUP | SIZE GUIDELINES

- The Kids logo lockup should never print less than 0.35" tall.
- When the Kids logo in print is .35"-.8" tall, the small version of art should be used. The sizes of the border and the circle R symbol (®) of the PBS Kids logo have been adjusted for legibility at a smaller size.
- The Kids logo lockup should be a minimum of 60 pixels tall for digital uses.
- Minimum padding around the Kids logo lockup is equal to 25% of the height of that lockup.
